Topic: Non Violent Resistance (NVR) and DDP: are they compatible?

Keith Baker will facilitate this day. Keith has trained in using DDP principles and is experienced in using NVR with adoptive families. He will help us to explore what NVR is, how it is used and to facilitate a discussion about how well it fits with DDP; and what potential confusions there might be.

**.Note:** This topic is proving very popular and I already have a lot of bookings following the advance notice that went out in December. Booking will be first come, first served. If you do book a place and find that you can't attend please let me know so I can offer it to someone else.
