## **“How do other therapeutic practices work alongside DDP?”**

Highbury Hospital Nottingham  
May 8<sup>th</sup> 2014

Following the growing interest in DDP study days we are arranging a number of regional meetings to enable people to get together and share ideas, hear how people are using DDP in their work setting and provide some opportunity for supervision. This meeting aims to hear from 3 clinicians who use a variety of other approaches, as well as DDP, for helping children with developmental trauma. This will include specific resources to help trauma, use of film and drama and Theraplay.

There will also be an opportunity for a small number of people to share a case, preferably with a recorded session, within a smaller group setting. If you have a case you are willing to share (and have consent) please can you let us know.
